

Project Design Phase-II

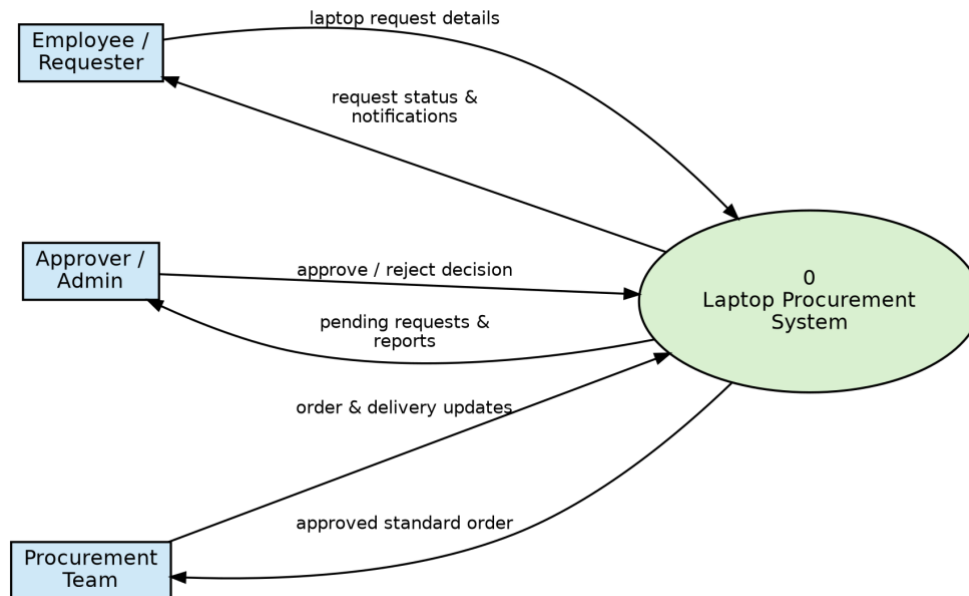

Data Flow Diagram & User Stories

Date	29/09/2026
Team ID	SWTID-2026-2508
Project Name	Streamlining IT Procurement: Automating Standard Laptop Orders
Maximum Marks	4 Marks

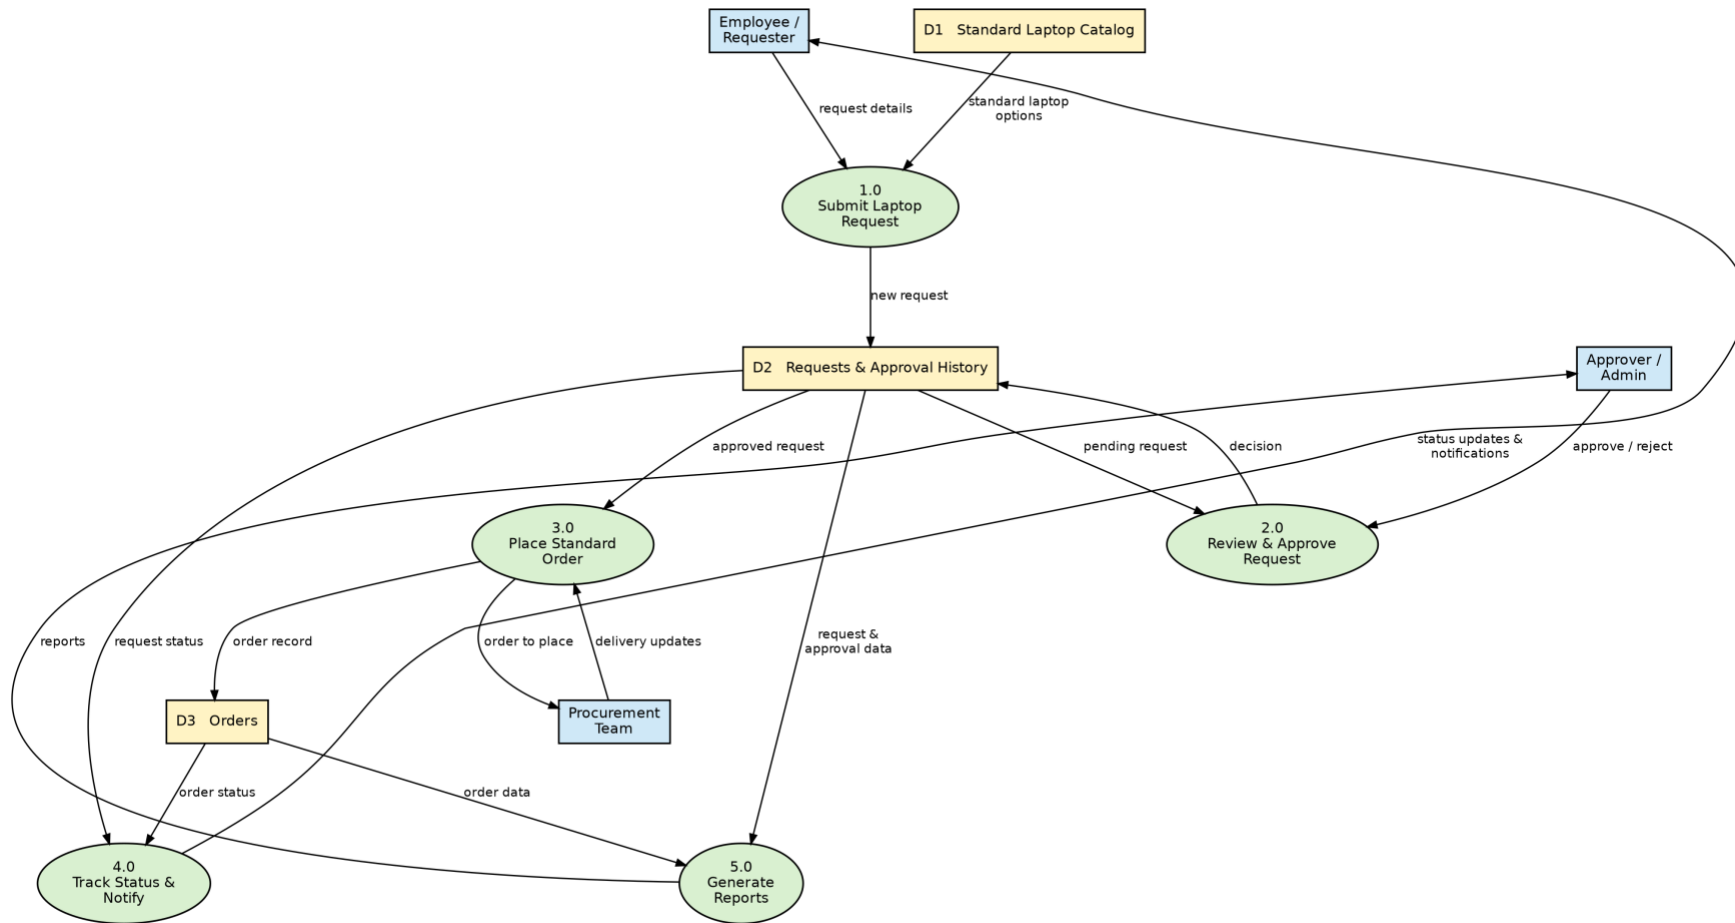

Data Flow Diagrams:

A Data Flow Diagram (DFD) is a traditional visual representation of the information flows within a system. A neat and clear DFD can depict the right amount of the system requirement graphically. It shows how data enters and leaves the system, what changes the information, and where data is stored.

DFD Level 0 (Context Diagram): Streamlining IT Procurement

DFD Level 1: Streamlining IT Procurement

Legend: blue boxes are external entities, green ovals are processes, yellow boxes are data stores (D1 Standard Laptop Catalog, D2 Requests & Approval History, D3 Orders).

User Stories

Use the below template to list all the user stories for the product.

User Type	Functional Requirement (Epic)	User Story Number	User Story / Task	Acceptance criteria	Priority	Release
Employee / Requester	Login	USN-1	As an employee, I can log in to the procurement system with my company email and password.	I can log in and access my dashboard	High	Sprint-1
Employee / Requester	Laptop Catalog	USN-2	As an employee, I can view the standard laptop catalog so that I can choose a suitable model.	I can see the list of standard laptops with their specifications	High	Sprint-1
Employee / Requester	Laptop Request	USN-3	As an employee, I can fill in and submit a laptop request form.	My request is saved and I receive a request ID	High	Sprint-1
Employee / Requester	Request Tracking	USN-4	As an employee, I can check the status of my laptop request.	I can see whether my request is pending, approved, rejected, ordered or completed	High	Sprint-2
Employee / Requester	Notifications	USN-5	As an employee, I receive a notification when the status of my request changes.	I receive an email / in-app notification for every status change	Medium	Sprint-2
Approver / Admin	Request Review	USN-6	As an admin, I can view all pending laptop requests.	I can see the pending requests with employee and laptop details	High	Sprint-1
Approver / Admin	Approval	USN-7	As an admin, I can approve or reject a laptop request.	The request status is updated and the decision is saved in the approval history	High	Sprint-1
Approver / Admin	Approval	USN-8	As an admin, I can enter a reason when I reject a request.	The rejection is saved with a reason and the requester can see it	Medium	Sprint-2
Approver / Admin	Dashboard	USN-9	As an admin, I can see a dashboard of pending, approved, ordered and completed requests.	The dashboard shows the count and list of requests for each status	Medium	Sprint-2
Approver / Admin	Catalog Management	USN-10	As an admin, I can add or update standard laptop models in the catalog.	Changes appear in the catalog seen by employees	Medium	Sprint-2
Approver / Admin	Reports	USN-11	As an admin, I can view basic reports of requests, approvals and orders.	I can view the report for a selected period	Low	Sprint-3

User Type	Functional Requirement (Epic)	User Story Number	User Story / Task	Acceptance criteria	Priority	Release
Procurement Team	Ordering	USN-12	As a procurement team member, I can see the approved requests that are ready for ordering.	Approved requests appear in my order list	High	Sprint-2
Procurement Team	Ordering	USN-13	As a procurement team member, I can place a standard laptop order for an approved request.	An order record is created and linked to the request	High	Sprint-2
Procurement Team	Order Tracking	USN-14	As a procurement team member, I can update the order status (ordered, shipped, delivered).	The requester and admin can see the updated order status	Medium	Sprint-3
