

Project Demo Planning

Date	15 March 2026
Team ID	SWTID-2026-2508
Project Name	Streamlining IT Procurement: Automating Standard Laptop Orders
Maximum Marks	1 Mark

Project Demo Planning:

A well-structured demo plan ensures that the team presents the project effectively, covering all key aspects in a clear and organized manner. This document outlines the plan for demonstrating the project, including the flow of the demo, key features to highlight, and responsibilities of each team member.

S.No	Demo Section	Description	Duration (mins)	Responsible Member
1	Introduction & Problem Statement	Explain the manual laptop request, approval and tracking problem and who it affects.	2	S. Esakkiraj
2	Solution Overview & Architecture	Show the layered architecture, the Flask + MySQL stack and the three user roles.	3	S. Esakkiraj
3	Employee Flow	Log in, browse the standard laptop catalog, submit a request and check its status.	3	M. Mariappan
4	Approver, Orders & Tracking	Approve or reject a request, create the order, update order status and show the email notification.	4	M. Jayanthi Nathan
5	Dashboard & Reports	Show the dashboard counts for pending, approved, ordered and completed requests, and the basic reports.	3	P. Kather Mydeen
6	Q&A; and Future Scope	Answer questions and explain limitations and the future plan.	5	All team members

Demo Flow Summary:

Step	Activity	Notes
1	Introduction & Problem Statement	State the problem in simple words with one real example of a delayed laptop request.
2	Solution Overview	Explain the architecture, the technologies used and how the three roles work together.
3	Live Feature Demonstration	Follow one request from submission to approval, order and delivery using prepared sample data, then show the dashboard and reports.
4	Q&A; Session	Answer questions. Total planned demo time is about 20 minutes.
